## Day 1: Wednesday 29 January 2020

8:00-9:00	Registration
9:00-9:30	Welcome and keynote addresses
9:30-11:00	<b>Session 1: The path to 2030</b> Global overview of progress to end preventable child pneumonia deaths by 2030 in the context of the Sustainable Development Goals (SDGs) and the movements to strengthen primary health care and achieve universal health coverage.
11:00-11:30	Break
11:30-13:00	<b>Session 2: The national government perspective</b> Views on the special challenges faced by governments in reducing child pneumonia deaths and the success factors that drive progress.
13:00-14:00	Lunch keynote address
14:00-15:30	<b>Session 3: The role of primary health care</b> Presentations from governments, United Nations and multilateral agencies and non-governmental organisations on how primary healthcare can transform pneumonia prevention, diagnosis and treatment services and accelerate child mortality declines.
15:30-16:00	Break
16:00-17:30	<b>Session 4: The international development perspective</b> Views from the major multilateral donors on how international development assistance can better support national governments to end preventable child pneumonia deaths.
17:30-17:45	Day 1 Concluding keynote address
18:00-20:00	Gavi reception: From vaccine innovations to impact

Day 2: Thursday 30 January 2020	
9:00-10:30	<p><b>Session 5: The humanitarian setting</b></p> <p>Views from major humanitarian agencies on how all parties can work more effectively together to reduce the growing proportion of child pneumonia deaths that are occurring in fragile settings.</p>
10:30-11:00	Break
11:00-12:30	<p><b>Session 6: The financing challenge</b></p> <p>Exploration of how increased domestic financing for health can close the wide gaps in pneumonia prevention, diagnosis and treatment, supplemented by international development assistance where necessary.</p>
12:30-14:00	Lunch research keynote
14:00-15:30	<p><b>Session 7: The research gap</b></p> <p>Views from leading researchers about priorities for future pneumonia research and how to increase pneumonia's share of infectious disease research funding.</p>
15:30-16:00	Break
16:00-17:00	<p><b>Session 8: The next breakthroughs</b></p> <p>Presentation from leading innovators of the technologies with the potential to rapidly accelerate declines in childhood pneumonia deaths by transforming prevention, diagnosis and/or treatment.</p>
17:00 – 18:00	<b>Session 9: Release of Global Forum Action Statement and final keynotes</b>

Day 3: Friday 31 January 2020	
9:30-10:30	<p><b>Session 10: The agenda for action</b></p> <p>Endorsement of Global Forum Action Statement outlining <b>critical next steps</b> to achieve the goal of three child pneumonia deaths per 1,000 live births in every country.</p>
10:30-11:00	Break
11:00-12:00	Concluding keynotes
